

IN THE CLAIMS:

Please cancel claims 5-9 without prejudice or disclaimer of the subject matter thereof.

The following is a complete listing of claims in this application.

1. (original) A light emitting device comprising:
a substrate;

an LED mounted on the substrate;

a first transparent layer sealing the LED;

a second transparent layer provided around the first transparent layer;

fluorescent material being included in either of the first transparent layer and the second transparent layer; and

a reflector layer formed on outside walls except an upper side.

2. (original) The light emitting device according to claim 1 wherein a coloring agent is included in either of the first and second transparent layers.

3. (original) The light emitting device according to claim 1 wherein fluorescent material and a coloring agent are included in either of the first and second transparent layers.

4. (original) The light emitting device according to claim 1 wherein the second transparent layer has an inverted trapezoid shape in section.

Claims 5-9 (canceled).
